## DatanSensing newsletter - N. 06 - June 2022

**S3N**  
MINIATURE  
PHOTOELECTRIC  
SENSOR

### NEW S3N SERIES

DatanSensing launches the new S3N series: a complete line of miniature photoelectric sensors with state-of-the-art functionalities and improved mechanical characteristics.

S3N series completely renews the former S3Z sensor line.

The new line adds advanced optical functions, like laser background suppression and retroreflex for clear objects. It offers a wide range of features with different adjustment methods and it also embeds IO-Link connectivity with a high degree of parameterization.
