Datasensing Newsletter - November 2023

PRODUCT NEWS

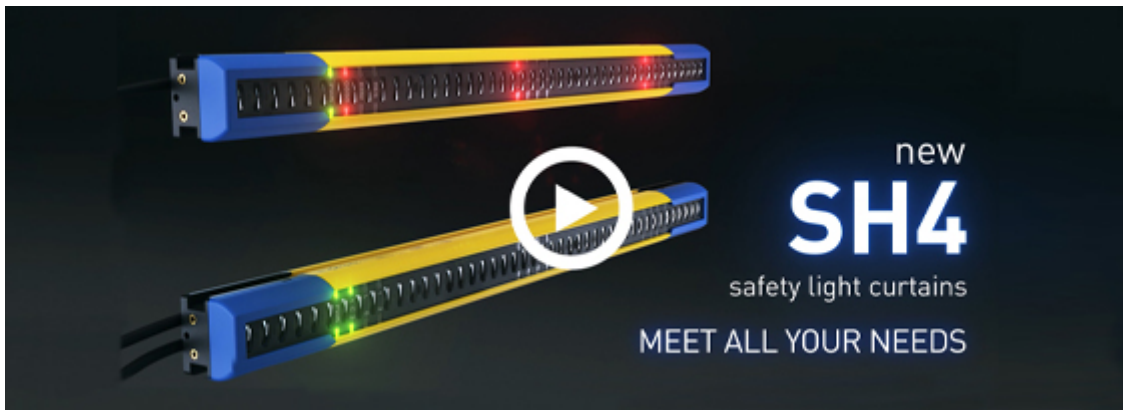

New P3x Smart Cameras with higher performances

P3x Series offers a complete line of color and monochrome smart cameras with Micro Video and C-mount lens options.

New smart cameras enhance the Datasensing Machine Vision portfolio with the introduction of 5MP resolution models and performances that are twice as fast as the current P2x series.

All accessories used with the P2x models are interchangeable and fully compatible with the P3x series.

VIDEO SH4

SH4 is a complete line of safety light curtains, designed to reach the highest level in environmental characteristics and performances, suitable to solve the needs of most applications in manufacturing and intralogistics sectors.

MACHINE VISION VIDEOS

MACHINE VISION VIDEOS

Datasensing introduces a new section dedicated Machine Vision, where you can explore video training and detailed presentations of our products. We invite you to check this section regularly as new content will be added.
